

GEO. W. ALBERS,
DRUGGIST & PHARMACIST,
EAST SIDE MARKET SQUARE.
Makes a Specialty of Elegant
Pharmaceuticals
AND
Physicians' Prescriptions.

Gov. CLEVELAND is a lawyer and a bachelor.

Twelve thousand English troops remain in Egypt.

There appears to be an epidemic of burglary in Nashville.

The Republicans made a clean sweep in Nashville yesterday.

SENATOR MORAN, of Alabama, will doubtless be his own successor.

The authorities in Mississippi will decline to give a certificate of election to General Chalmers.

THURLOW WEED was eighty-five years old Wednesday. His health is failing rapidly, and a remarkable life is approaching its end.

There will be fifty contested seats in the next House of Representatives, and the committee on privileges and elections will have plenty of work to do.

It is said that Judge White, a brother-in-law of Speaker Keifer, will be appointed United States District Judge for the southern district of Ohio.

We hear the name of Hon. Robert L. Taylor mentioned in connection with the Senatorial election in this State; also that of Justice Robert McFarland.

HANCOCK, HAWKINS and HAMBLIN did well in electing Hon. H. C. Jarvis to the Legislature. He is a young man of ability, and will be heard from.

JOHN WESLEY's study Bible has been presented to the General Conference of the Methodist Episcopal Church in the United States through Bishop Simpson.

A son of Spurgeon, the great English preacher, is in New York. He preached there last Sabbath and will preach again next Sabbath. He is represented as a forcible and interesting speaker.

This is truly an age of surprises. If the Democrats should nominate Ben. Butler for President in 1884, it would be a great surprise, and should they elect him the surprise would be intensified.

Newspapers and Their Price.

Emporia (Kan.) News.

There has been some talk of late in the Kansas City papers, and others in that neighborhood, about cheap papers, caused by the reduction in the subscription price of the Kansas City Times and the Topical Commonwealth. We presume the proprietors of both papers had some good reasons for reducing the subscription price of their papers one-half. They say by the act that if they can now afford to furnish their papers at \$5 per year they have heretofore been practicing extortion by charging \$10. This is the conclusion which many people will reach. For some years the managers of the Times conducted it entirely upon the sensational basis. This coming to an end, as sensational papers always do, and the paper falling back on its merits as a newspaper, it finds itself outstripping it in the race. The cheap dodge was resorted to to enable the paper to win. Two things must result from the reduction, either the paper cannot spend the money upon its pages necessary to make it a good newspaper, or it will not win. The latter is the result which we think will be the result.

Make your old things look like new by using the Diamond Dye, and you will be happy. Any of the fashionable colors for 10 cents.

Wants Pay for his Putty.

The glazier whose putty box received the second bullet fired by Guileau, at President Garfield, has applied to the board which is auditing claims arising out of Garfield's illness and death, seeking their assistance to secure him a position as watchman in the government employ.

Fever Epidemic.

PROVIDENCE R. I., November 15.—The Dispatch says the fever epidemic here appears to be increasing. It is reported that there are over 2,000 cases of fever, ranging from a light malarial to a malignant typhoid, in the city.

Pure Cod-Liver Oil made from selected livers, on the sea-shore, by Cassell, Hazard & Co., New York. It is absolutely pure and sweet. Patients who have once taken it prefer it to all others. Physicians have decided it superior to any of the other oils in market.

Chapped Hands, Face, Pimples, and rough skin, cured by using Juniper Tar Soap, made by Cassell, Hazard & Co., New York.

Knoxville

Chronicle.

VOL. XIII.

KNOXVILLE, TENN.: FRIDAY MORNING, NOVEMBER 17, 1882.

NO. 140.

WASHINGTON.

Another Star Route Jury Briber Surrenders.

WASHINGTON, D. C., November 15.—Thos. A. Foote, one of the men charged with attempting to influence members of the Star Route jury gave himself up to the marshal this afternoon, and was taken to the Police Court, where he gave bail in \$2,000. It is reported by the secret service division, that a good counterfeit of the Bland silver dollar is being extensively circulated throughout the country. The coin is heavily plated, and resists acid test, unless it is deeply cut before the acid is applied. It is considered a dangerous counterfeit.

Chattanooga Assignment.

CHATTANOOGA, November 15.—J. P. McCall, wholesale dealer in dry goods and notions, assigned to-day. His liabilities are \$400,000 and assets \$75,000. The cause of the assignment was heavy losses in a fruit canning establishment in Illinois, the creditors of which were about to attach his Chattanooga store. The assignment was made to protect his partners, Armour & Davis, of Greensboro, Ga., who had no interest in the Illinois concern from the liability for his individual debts. The house was doing a prosperous business. The creditors are principally in New York City, Troy, N. Y., and Baltimore.

Suit Against a Telegraph Company.

ALBANY, N. Y., November 16.—Application was yesterday made to the Attorney-General for the commencement of action by the people of the State of New York against the Mutual Union Telegraph Co. to vacate its charter and dissolve the corporation, upon the grounds, first, that the company has unlawfully issued \$100,000 of capital when by law it was only authorized to issue \$100,000; second, that about \$5,000,000 of the bonds of the company have been issued in payment for the construction and equipment of lines of telegraph worth about \$3,500,000, and substantially the whole of the \$10,000,000 stock has been fraudulently issued in connection therewith without any payment or other adequate consideration to the company.

The application is made by Wm. Hendry Cameron, a stockholder in the company, and with it is filed a further application made by Jay Gould, stating that he is informed of these proceedings and that he desires to be joined as relator in such action as may be brought.

The Attorney-General has issued a citation directing the company to show cause on Tuesday next, why the application should not be granted and proceedings commenced.

Resigned.

NEW YORK, November 16.—A New Orleans special to the Times states that Hon. Thos. J. Semmes, an eminent lawyer and ex-Confederate State Senator, resigned his seat as president of the city council yesterday, on account of the provision in the new city charter forbidding any member of the council being interested in any contract or business engagement paid for out of the city treasury. It is said Semmes' interpretation of the law will probably disqualify several other members of the city government, among them, it is alleged, Mr. Behan, the newly elected mayor, who is judgment creditor of the city, under the old contract, for lighting the suburban portion of the town with coal oil.

The Fall of an Elevator.

LOUISVILLE, Ky., Nov. 16.—To-day the passenger elevator in McKnight's carpet house, on Main street, containing five passengers, fell from the second floor to the basement, seriously injuring four of the passengers and painfully wounding the fifth. Their names are Capt. W. C. Hite, of Louisville, composed of fracture of left leg and simple fracture of right leg; Capt. John Howard, of Jeffersonville, small bone of left leg and right ankle fractured; Judge B. F. Beard, of Hardinburg, Breckinridge County, Ky., painfully bruised, but no bones broken; C. F. Turner, salesman with McKnight, badly bruised; and K. Dye, another salesman, ankle joint fractured and probably a rib broken.

The Work House Force.

ESQ. Peyton Carter, superintendent of the Knox County work house, relates a case of over sixty convicts pretty much all the time, and they are still doing good work overhauling and rebuilding the old Rutledge pike, from the point where they began, at Col. C. W. Hall's, about three miles from the city. He has experienced a slight drawback in the shape of assistance in hauling rock to citizens, which work has been impeded on account of the busy season of sowing wheat for the past week or two. The work is going steadily on, however, and the rock is spread to a point this side of the Thompson field, beyond the old fair ground.

The rock crusher is being moved nearer to the city, at a point near M. E. Thompson's home, and work will be commenced crushing rock there to-day. The prison quarters remain, however, at the old point near Constable J. H. Kirk's residence.

Good Advice.

You will prevent and cure the greater part of the ills that afflict mankind in this or any section, if you keep your stomach, liver and kidneys in perfect working order. There is no medicine known that does this as surely as Parker's Ginger Tonic. It gives you good blood rich and pure, and gives you good health at little cost. See other columns.

The Lost Vessel.

PORTSMOUTH, ENG., November 15.—The third officer of the Westphalia, reports that after pulling about for nearly two hours, he saw the vessel go down, about two hundred yards distant, but was unable to ascertain her name or nationality. He saw the flames burst from the steamer before she sank. The Westphalia was surveyed in the dock to-day. The damage on the starboard side extends from the stern to forty feet aft, and on the port side from the stern to fifteen feet aft. The hole on the port side is five feet across a large piece of the steamer, with which she collided, including some fragments, sticking in the hole. The Westphalia's stern appears to be sound. The vessels seem to have met stern to stern. After the strike it is probable the other steamer swung around and scraped along the Westphalia's starboard side. The latter vessel, despite the extensive damage she sustained, according to the latest account, waited six hours before making a port of refuge.

LONDON, November 15.—A dispatch from New Haven states that three officers, two quartermasters and three seamen, constituting the crew of the boat sent from the steamer Westphalia, in search of the latter vessel, which collided with the Westphalia, have landed there by the Belgian pilot boat. They report having seen the other sink with all hands.

Alabama Legislature.

MONTGOMERY, ALA., November 15.—The senate organized to-day by the election of Geo. F. Harrison president, and W. L. Clay secretary. In the house W. F. Foster was elected speaker and D. W. McVey secretary. Both branches of the Legislature are Democratic by large majorities. Governor Cobb's message was sent in to both houses. It deals almost entirely with State matters.

The Governor's message makes a fine exhibit of State affairs. The bonded debt of the State is \$94,078,000, and the annual interest \$344,000. The amount of cash in the treasury on October 1st, the end of the last fiscal year, was \$421,000. There has been a considerable increase in the assessed value of the property in the State, being nearly 25 per cent. in the last three years. A reduction of taxation is recommended as the State expenses have been greatly reduced in the last few years, and after paying every claim there has been a surplus at the end of each year. The greater part of the message is devoted to recommendations to the Legislature and a review of the public institutions of the State, which are all in good condition. The message, on the whole, gives great satisfaction and shows the State to be on a high road to a prosperous future.

The Peach Crop of 1882.

CHICAGO TRIBUNE.

The enormous estimate that was given of the peach crop this year has been liberally verified. By the close of the season there will have been sent to Cincinnati above 1,500,000 baskets, and to Chicago twice as many, and about 500,000 direct to New England cities. The canners of Baltimore and Philadelphia and co-operators near the peach growing sections have operated very heavily this year, using 1,500,000 bushels. Eighty evaporating establishments have been busy in Delaware and Maryland ever since fine fruit was ready to be picked. The evaporating method has almost supplanted the old custom of sun-drying to one side. In the new process, peaches can be packed in halves, with a very showy appearance that materially helps sales. The market was very short of good dried peaches since last summer, and as crops are apt to alternate heavy and light, preservers have aimed to provide for a possible short offering in 1883. It is thought the crop of this year will equal that of the remarkable growth of 1875. In a commercial sense it certainly does, for at that time the rush of supply was very sudden.

Peaches have not averaged fine in quality since 1875, and a drought occurred at a time which prevented the uniform, complete, luscious ripeness for which peninsular fruit is celebrated. In consequence of this prices have not been as satisfactory for growers as in some other seasons. Those who contracted their trees early have done much better than most of the farmers who have shipped on commission.

Princess of Bagdad by Miss Claire Scott.

To-night the engaging and accomplished young English actress, Miss Claire Scott, and an excellent supporting company, will present The Princess of Bagdad at Stan's Opera-house. Of an appearance in Rome, Ga., an exchange in that city says: "The performance of Claire Scott is certainly a surprise to our people, notwithstanding the fact that she has been long known to our country. Our people did not expect to see a star and company which may be said to be the equal, if not superior, to any that has ever visited the South. Claire Scott certainly is a most magnificent actress and the claims set forth for her have not been magnified. Her acting is sublime—in fact she may be called a natural actress, for no attempt at artificial means of attraction is needed. In the course of the 'Leah,' the forenoon scenes, rises magnificently, and casting defiance at Rudolph, she causes a shudder to run through the veins of her listeners and about the heads of the audience is broken by long and hearty applause. Of Mr. S. K. Coburn, her leading support, it is only necessary to say that in every act and motion of Miss Scott, he second her and meets every requirement. The entire company are artists, and ably lend their aid to the star. In fact it may be said that no actress ever had a better support than Miss Scott."

Incendiary Fire.

RIVINGTON, N. B., November 15.—An incendiary fire here Sunday morning destroyed fifteen of eight hundred business houses in town. Loss, \$60,000 to \$70,000. A man named Hickman has been bound over to answer on a charge of causing the fire. The citizens appeal for aid, and E. P. Farmington, of Chicago, has been appointed to solicit funds for rebuilding.

A New Railroad.

MORRIS DEMOCRAT.

On last Saturday afternoon a number of gentlemen met in the office of Dr. R. F. Scruggs and signed a charter for a narrow gauge railroad from this place to Tellico Plains. The charter was sent up to the secretary of State for registration. The charter members are such influential men as Dr. R. F. Scruggs, Robert Pritchard, Col. W. A. Hoskins, Worth Stickle, B. A. Clift, W. F. Hutcheson, J. M. Jones, W. H. Thompson, T. E. H. McCrocker, J. A. Johnston, S. P. Hale, J. A. Peck, J. P. Ketchum, J. F. Magill, Ed. Clark, J. A. Boyle, C. W. Hicks, J. E. Houston, J. C. Montgomery, J. W. Robertson, J. R. Sloan. We publish a call elsewhere for a meeting to perfect a permanent organization. This project meets with universal favor. It would increase the taxable property of this county to a wonderful degree. The County Court could well afford to take stock to a liberal extent. Sweetwater and Madisonville will subscribe liberally. The E. T. V. G. railroad has made an advantageous offer of assistance. The route has been investigated by Mr. Thomas, and he pronounces it very practicable. Now, while the iron is hot, is the time to wait it.

Another Testimonial.

The editor of the CHRONICLE acknowledges the receipt of another bouquet of flowers, artistically arranged, from ladies in Maryville, as a testimonial of their appreciation of his efforts "for the right" in the late contest. It is gratifying beyond expression to be endorsed under such circumstances by those whose approval means so much.

Sentence Commuted.

RICHMOND, O., November 15.—Governor Cameron today decided to commute to imprisonment for life, the death sentence of Mary Booth, a colored girl convicted in Surry, Va., of poisoning the wife of R. C. Gary, and his overseer, Jones. She was to have been hanged on Friday.

Ill health generally comes from lack of the proper life force in the blood. To restore the blood to a healthy state use Brown's Iron Bitters.

The Westphalia.

LONDON, Nov. 16.—The third officer of the steamer Westphalia, who commanded the boat sent in search of the Westphalia, says the boat seen by the channel pilot on Tuesday morning twenty miles from Beachy Head cannot have been his. It may have been one belonging to the sunken steamer.

One Experience From Many.

I had been sick and miserable so long and had caused my husband much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hay Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unusual, but when I told them what had helped me, they said "Hurray for Hay Bitters! long may they prosper, for they have made mother well and us happy."—The mother.

A well known gambler of Denver paid a negro a dollar the other day to wash a wreck of a man who sat in the Justice's court, unconscious of what was going on around him. The wreck was Champion Vaughan, once a prominent figure in Kansas, editor of the Leavenworth Times, an officer of the Union army, and from 1872 to 1877 editor of the Denver Tribune. For years past he has lived on charity.

The Queens of Society.

are among the staunchest advocates of beautifying SOZODONT, which communicates to the teeth the glistening whiteness of snow, arrests their decay, renders spongy and ulcerated gums healthy, and breathes made offensive by defective teeth as sweet as honey suckle. Ladies, ye were made to captivate, make your conquests sure and swift, your empire over male hearts lasting by its sovereign aid. The fashionable world declares there is nothing like it.

The Peach Crop of 1882.

CHICAGO TRIBUNE.

The enormous estimate that was given of the peach crop this year has been liberally verified. By the close of the season there will have been sent to Cincinnati above 1,500,000 baskets, and to Chicago twice as many, and about 500,000 direct to New England cities. The canners of Baltimore and Philadelphia and co-operators near the peach growing sections have operated very heavily this year, using 1,500,000 bushels. Eighty evaporating establishments have been busy in Delaware and Maryland ever since fine fruit was ready to be picked. The evaporating method has almost supplanted the old custom of sun-drying to one side. In the new process, peaches can be packed in halves, with a very showy appearance that materially helps sales. The market was very short of good dried peaches since last summer, and as crops are apt to alternate heavy and light, preservers have aimed to provide for a possible short offering in 1883. It is thought the crop of this year will equal that of the remarkable growth of 1875. In a commercial sense it certainly does, for at that time the rush of supply was very sudden.

Coal Mining.

CLEVELAND, O., November 16.—Operators and representatives here of the coal mines in the Massillon, Akron and Maumee districts will not concede the advance demanded by the miners. They say plenty of coal is on hand and prices of labor are too high now, and a large proportion of the mines were about to shut down for the winter, irrespective of strikes. The operators say the miners may work while the mines are operated, or they may stop as they choose, but they apprehend no serious trouble.

Fatal Explosion.

MONTGOMERY, ALA., November 16.—The boiler of the engine attached to the steam ginery and mill of A. G. McGehee, about twelve miles from this city, exploded yesterday, instantly killing three negro men. It was caused by insufficient water in the boiler.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS as the highest nutritive food on both sides of the Atlantic as an invigorating tonic and stimulant. It is the most perfect and purest of all food extracts. It is the most perfect and purest of all food extracts. It is the most perfect and purest of all food extracts.

DARBY'S

PROPHYLACTIC FLUID.

A Household Article for Universal Family Use.

Eradicates Typhoid Fever, Diphtheria, Scurvy, Erysipelas, and all Contagious Diseases. Persons waiting on the sick should use Darby's Fluid. It is the most perfect and purest of all food extracts. It is the most perfect and purest of all food extracts. It is the most perfect and purest
